

For Immediate Release
FRENCH STARS INVADE FRENCH FILM FESTIVAL

Miami: November 7.8.9, 2008

Boca Raton: November 14.15.16, 2008

DANY BOON, writer/director/actor of France's most successful film in history, will attend France Cinema Floride film festival. The film is called **"Welcome to the Land of the Ch'tis"**. This blockbuster has been seen by over 20 million people in France, a country of close to 62 million people.

Also in attendance will be **KAD MERAD, the main actor**, and **ERIC HUBERT, the film's executive producer**.

This is the first time Dany, Kad and Eric attend a screening of the film in the US. They will present the films and stay with us for Q&A after the screening.

Other talents will be attending the festival, giving audiences the opportunity to hear directly from the creators and to interact with them in Q&A sessions.

The critically-acclaimed film **"Magic"** will be presented 1 week after the French release by its up and coming **writer/director PHILIPPE MUYL**. The film is a French-Canadian co-production.

Writer/director FREDERIC BERTHE will be in Boca Raton presenting his film **"School's out"** for the first time outside of France. Many other films will captivate audiences and transport them.

Also it's an honor to have with us this year a great young actress **MELANIE DOUTEY**.

The festival will feature films for young audiences as well, including a live-action Asterix film with Gerard Depardieu and an animated Lucky Luke feature. All films will be shown in French with English sub-titles.
